The Students have a reserved sections in the audience where they will be watching the performance with some helpers that will be supervising. At the end of the performances the students who are sitting in the reserved section will be ask to return to the stage.

Every year we have some parents that go and get the students and have them sit with them please let the dancers experience this with their classmates. It is their special night and it is way more fun with their fellow dancers. If you would like to volunteer to sit with the dancers please contact Miss Julie.

We also ask that everyone stay till the end of the performance to encourage all dancers. It is great for the younger ones to stay and see what they can look like with hard work and dedication.
